

## Opportunities for Entrepreneurs and Enterprises at Wold Congress

There are a number of ways Subud entrepreneurs and enterprises can participate through SESI at World Congress. We've outlined some of these below, including how to promote awareness of your business or project. But if you'd like to propose something different, don't hesitate to let us know and we'll see if we can accommodate you.

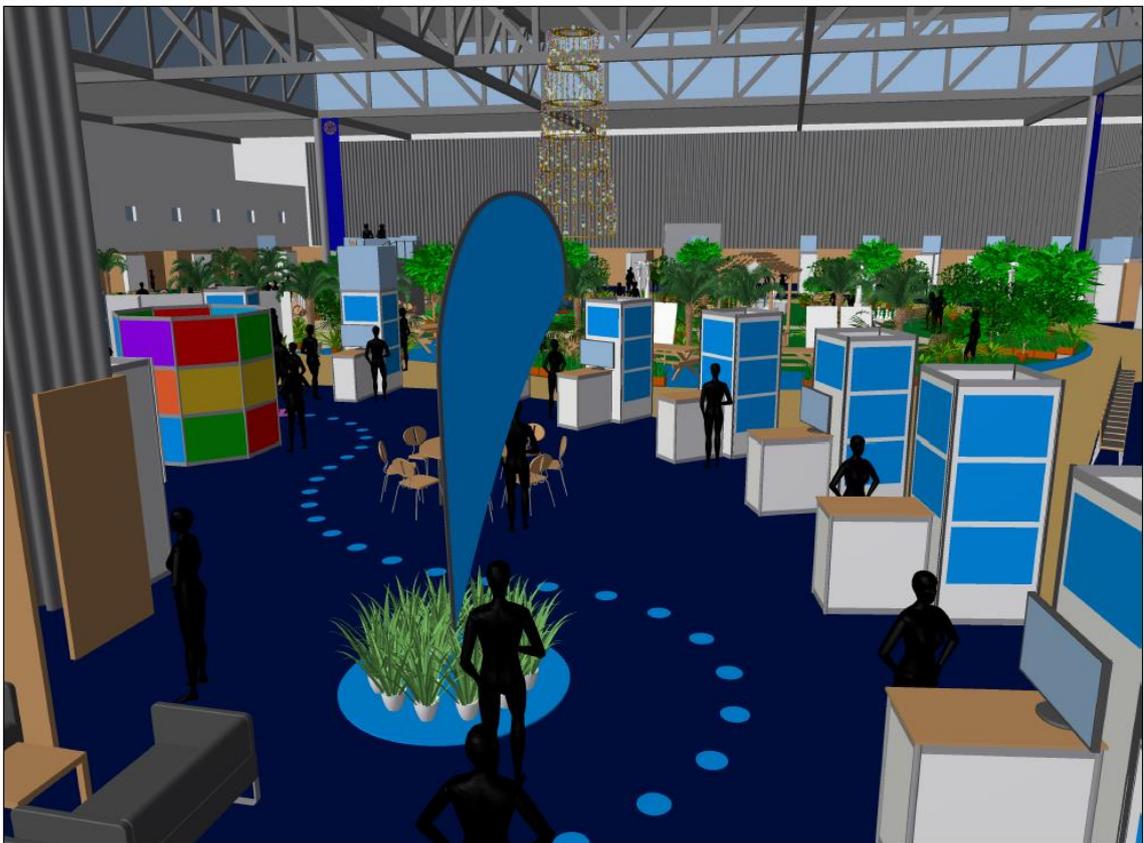

SESI activities will feature in the Congress program – be sure not to miss some of our accomplished entrepreneurs speaking in 'TED' style talks about their experience of the relationship between the latihan, enterprise and work. SESI will also have its own area and activities inside the Subud Village, the focal point of the Congress to be located within Halle 2:

Here are some opportunities for entrepreneurs and enterprises at Congress, including ways to promote or create awareness of your business or project.

- ❖ **The Project Showcase:** Need to raise money to expand or start something new? Chaired by Osanna Vaughn on behalf of all of the wings, the Project Showcase is offering US \$100,000 (in total) for great ideas and plans to implement them -- with a particular emphasis on enterprises. Contact [Osanna](#) for more details.

- ❖ **Enterprise Mentors:** Whether you need some input to help develop a submission and presentation for the Project Showcase or you would just like to get some external input into a business opportunity or challenge, we'll be able to you with other entrepreneurs and business people who can share their experience. Contact [Harris Madden](#) either before or during the Congress if you'd like to get some input.
- ❖ **Exhibition Kiosks:** SESI has six 'exhibition kiosks' available for enterprises who would like to present themselves prominently at Congress. The kiosks are situated on the walkway at the perimeter of the SESI area (see illustration below) and offer excellent exposure. Each kiosk comprises a pillar for posters and visual presentation materials (specific sizes and combinations apply) as well as a bench that can accommodate a computer or audio-visual equipment for occasional or looped presentations. The cost for a kiosk is **US \$250** for the duration of Congress (excludes presentation materials). Multiple enterprises can share a kiosk by time or space as long as one is responsible for the booking. Kiosks will be allocated to the first to order and pay. Contact [Harris](#) at SESI for more information.

- ❖ **Poster Display Areas:** Within the SESI area, we have available six poster display areas (see illustration that follows). These are also ideal for enterprises and projects who would like to present themselves and, while not as prominent as the kiosks, will be seen by people following the walkway through SESI and the other Congress exhibition spaces. Specific size (A1) and other requirements apply. The cost of each poster display area (accommodating 3 x A1 posters) is **US \$50**. The six poster display areas will be allocated to the first to order and pay. Contact [Harris](#) at SESI for more information. If you are a small enterprise in a developing country and you cant afford a poster, contact us anyway as we have set aside some space for you.

- ❖ **Projected Content:** We have available three double screen 'short throw' projectors that accept USB memory sticks allowing looped delivery of video or presentations. If you can produce or supply the content, we can find a location within the SESI exhibition.
- ❖ **Make a Presentation:** Do you know just how infectious and inspiring your experience can be to others? We'd love you to make a presentation about your enterprise or project and we've got the spaces for you to do just that. The Wings Presentation Theatre (shown in the illustration above) holds around 60 people and the Subud Village Auditorium can accommodate over 350. Contact [SESI](#) to register your interest and we'll do our best arrange a time and venue for you with the relevant Congress program and venue coordinators.
- ❖ **Lead a discussion:** Got something to say? Like to know what others are thinking? Want to coordinate a discussion or a workshop? Want to create a network of marketers or of women entrepreneurs or of start-up investors? Whether it is ten people around a table or a whole auditorium, we'll help you with the space and time. Just make contact [here](#) and let us know what you're thinking.
- ❖ **Sponsor or Contribute to the SESI Congress Exhibition.** We are looking for great ideas and great content for SESI itself to present to members at Congress. We have multiple opportunities within the SESI area using video, posters or other kinds of exhibits. We are looking for thematic (not directly commercial or company-focused) ideas and contributions -- especially those that are based on putting Bapak's advice about enterprise into action. Got an idea? Like to help produce something? Like to sponsor something inspiring for the benefit of members attending? [Let us know.](#)

If you have a different idea or a need that we haven't anticipated, please don't hesitate to contact either [Hadrian](#) or [Harris](#) to let us know.
